**Terms and Conditions**—Unless otherwise stated herein, this proposal is conditioned upon negotiation of mutually acceptable terms and conditions.  
**Proposal Pricing**—Pricing proposed herein is based upon the specific product/service mix and locations outlined in this proposal, and is subject to AT&T’s standard terms and conditions for those products and services and the AT&T E-Rate Rider unless otherwise stated herein. Any changes or variations in the standard terms and conditions, the products/services, length of term, locations, and/or design described herein may result in different pricing.

**Disclaimer**—For purposes of this Proposal, the identification of certain services as “eligible” or “non-eligible” for Universal Service (“E-Rate”) funding is not dispositive, nor does it suggest that this or any other services in this Proposal will be deemed eligible for such funding. Any conclusions regarding the eligibility of services for E-Rate funding must be based on several factors, many of which have yet to be determined relative to the proposed services and equipment described herein. Such factors will include, without limitation, the ultimate design configuration of the network, the specific products and services provisioned to operate the network, and the type of customer, and whether the services are used for eligible educational

purposes at eligible locations. In its proposal, AT&T will take guidance from the "Eligible Services List" and the specific sections on product and service eligibility on the Schools and Libraries Division ("SLD") of the Universal Service Administrative Company ("USAC") website [www.usac.org/sl](http://www.usac.org/sl). This site provides a current listing of eligible products and services, as well as conditionally eligible and ineligible services. This guidance notwithstanding, the final determination of eligibility will be made by the SLD after a review of the customer's E-Rate application for this proposal. If AT&T is awarded the bid for this project, AT&T will provide assistance on the E-Rate application solely on matters relative to the functionality of the services and products which comprise the network. Nevertheless, the responsibility for the E-Rate application is with the customer. AT&T is not responsible for the outcome of the SLD's decision on these matters.
