Subject: RE: Hayward Unified Food Service Bid - Sysco

Hi Dominic,
Yes, it is doable.

Just an FYI - a piggyback clause is not required by PCC. [PCC20118](#) simply allows "if there is an existing contract between a public corporation or agency and a vendor for the lease or purchase of the personal property, a school district may authorize the lease or purchase of personal property directly from the vendor by contract, lease, requisition, or purchase order and make payment to the vendor under the same terms that are available to the public corporation or agency under the contract."

That being said, the Hayward Unified School District has no objection and is happy to allow Mount Diablo Unified School District to piggyback on our contract awarded to Sysco SF for 19.103 Food Products.

Please let me know if there is anything more I can do for you.

Subject: Hayward Unified Food Service Bid - Sysco

Hi Rose,

My name is Dominic Machi and I am the Director of Food & Nutrition Services for the Mt. Diablo Unified School District. Previously, we had received word that your Food Services Department was okay if we were to "piggyback" on the

Hayward Unified Food Service Bid, which the distributor Sysco, won the bid. Is this okay with you? I did not see a piggyback clause on the bid but is it possible to send a letter that states we are approved to piggyback on the bid? We are having a difficult time with our present distributor and this will help us out considerably. Please let me know if this is doable and we so appreciate your help. Let me know if you have any questions. Talk soon.

Dominic
