**Ms. Melanie Koslow**, Assistant Director  
Maintenance & Operations  
Mt. Diablo Unified School District  
1480 Gasoline Alley, Concord, CA, 94520

**Re: Design Revision Proposal - Emergency Generator**

Dear Ms. Koslow:

Per your request, the following is a proposal to render engineering design revisions services relative to the emergency generator project.

The design revisions are:

**Description of design services:**

- a. Fieldwork to identify all the electrical panels on the M&O building, Purchasing building and Bus Garage building. Identification of all power-loads required by District that are to be connected to emergency power and designing the connection to the new generator. The power-loads that will be connected to the new generator will include walk-in refrigerator equipment, lighting, computers, servers, communication equipment and receptacles. This project will also include evaluating these emergency loads to confirm the size of the new generator.
- b. Preparation of backgrounds plans (relative to item a.)

**Fees for the above added services:**

- a. \$20,600 (Twenty Thousand Dollars)
- b. \$2,000 (Two Thousand Dollars)

**Total: 22,600**
