Resolution 22-23 (58) Adopting Bears Mascot Presentation Concord High School New Mascot 2023

The State of California, as codified in Education Code Section 221.2 (The California Racial Mascots Act) finds and declares the following: "The use of racially derogatory or discriminatory school or athletic team names, mascots, or nicknames in California public schools is antithetical to the California school mission of providing an equal education to all... Many individuals and organizations interested and experienced in human relations, including the United States Commission on Civil Rights, have concluded that the use of Native American images and names in school sports is a barrier to equality and understanding, and that all residents of the United States would benefit from the discontinuance of their use. No individual or school has a cognizable interest in retaining a racially derogatory or discriminatory school or athletic team name, mascot, or nickname." Concord High School, through the New Mascot Student Committee, is requesting the review and approval of a mascot change at Concord High School. The Student Body has conducted multiple petitions, town hall meetings, as well as conducted multiple rounds of student discussions and voting over several months, involving all stakeholders of the Concord High School community including students, alumni and staff. As a result of the discussions and multiple rounds of student voting, the Concord High School community has selected the mascot name "The Bears" to replace the name "Minutemen" as presented to the Board on May 10, 2023.

### **15.6 Review and Potential Approval of the Science Courses of Study Aligned to NGSS for Living Earth, Chemistry in the Earth System, Physics of the Universe, Earth Science II, Environmental Science, Physiology, and Zoology**

The Next Generation Science Standards (NGSS) were presented in May 2015 to the board. The NGSS focuses on an integrated approach to science where students are given opportunities to interact with phenomena. Through these interactions, students build their skills and knowledge in order to meet the performance expectations. The intent of the NGSS is to make science accessible to all students. The high school courses were modified to align to the NGSS and be more accessible. Our curriculum team has been working with teachers to revise current general science courses and build new courses to align to the new standards and approach to science instruction. In 2022, we adopted new curriculum for these courses and, again, worked with teams of teachers to align the courses to the new curriculum. The previously board adopted courses were based on the content standards and were adopted by the board in 2000. These courses of study represent courses that are NGSS aligned, accessible to students, and aligned to the newly adopted curriculum.

**Recommendation:** Move to approve the science courses of study aligned to NGSS.
