Adaptive Reading and Language Solution for Grades 6-12

Make fast and lasting reading gains.

Transform readers from struggling to strong

We're committed to disrupting the reading status quo. We're laser-focused on accelerating student reading growth, so they're no longer part of the two-thirds of students that read below grade level. Fast ForWord Literacy is the first reading intervention fully designed to build cognitive and language skills in adolescent learners at an accelerated pace, resulting in lasting reading gains, social-emotional growth, and improved graduation rates.

It's time for students to realize their full reading potential, whether they need to catch up a few months or several years. Fast ForWord speeds up their progress by going straight to the cognitive building blocks of all reading and learning. Our unique and evidence-based approach, supported by the science of learning, builds the super highways of the brain to make learning and reading gains more efficient.

Let's Fast ForWord student literacy!

Efficient Reading Gains in Limited Time

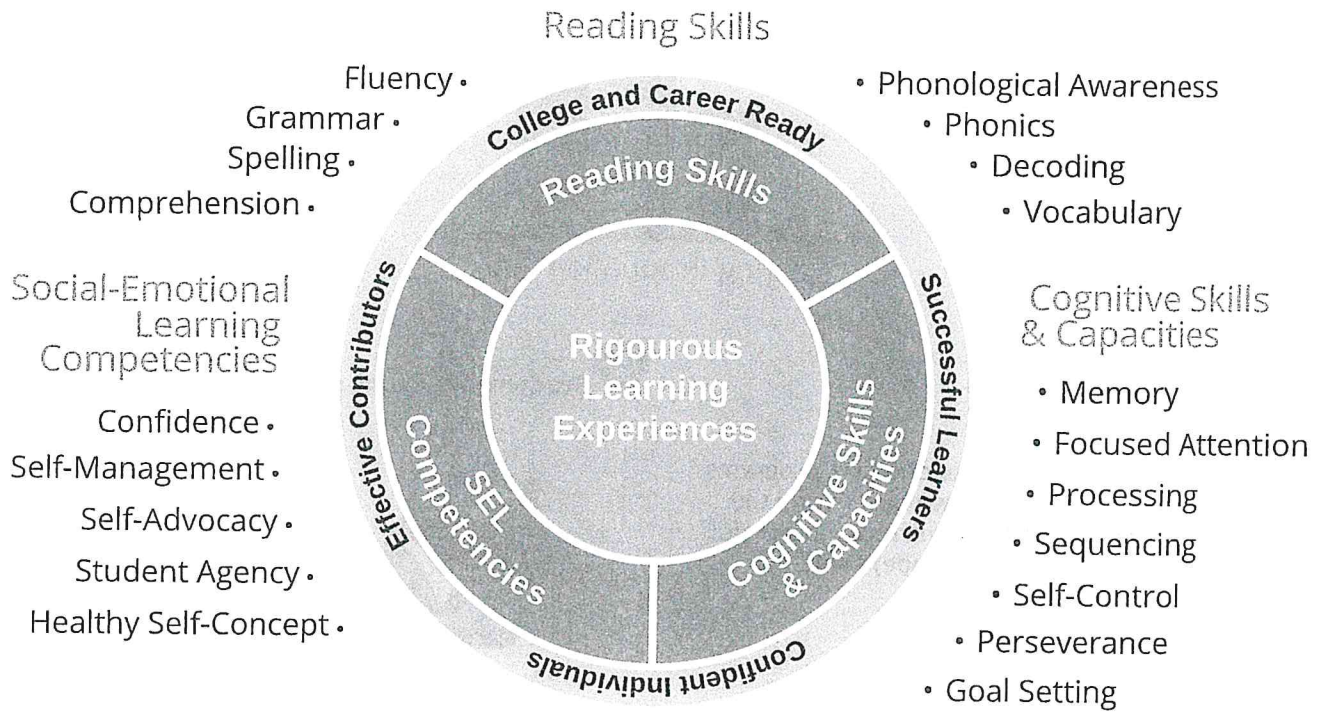

Struggling readers who use Fast ForWord Literacy catch up to grade-level with incredible efficiency, saving you valuable class time. Fast ForWord adapts to make the most of each student's learning time by giving them the precise practice they need. This rigorous solution allows students to make efficient progress. With more exercise trials than any other reading program, Fast ForWord helps learners make 1-2 years' reading gains in just 40-60 hours of use, and these gains last.

- **Support Student Agency**
Behind the Help menu, students can easily replay exercise instructions, engage in a practice mode, and view their overall progress.
- **Foster Rigorous Learning**
Current and high streak counters reflect accuracy, which intensively build focus, attention, and memory.
- **Motivate Students**
As students level up, the variety in exercises and rewards encourages confidence and agency.

A Uniquely Effective Application of the Science of Learning

It's not enough for struggling readers to have a reading intervention; it has to work. Fast ForWord Literacy is effective because it uses the science of learning to help students develop their reading brain in ways that other programs ignore. Research shows that the building blocks of reading skills are cognitive skills like working memory, attention, and processing. These are the exact skills that Fast ForWord strengthens within the context of literacy, so struggling students can become strong readers and learners.

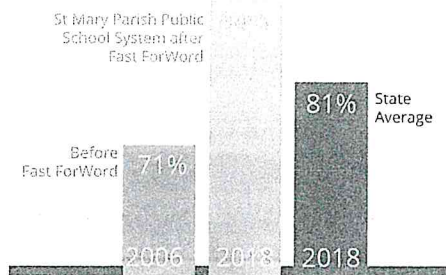

Rigorous Learning Experiences

- Frequency
- Intensity
- Adaptivity
- Skill Cross-Training
- Timely Motivation
- Socially Safe Learning Environment
- Optimally Timed Rewards

Fast ForWord Literacy helps a wide range of struggling readers excel.

- 1 **Students with unfinished learning**
Make 1-2 years' reading gains in just 40-60 hours of use.
- 2 **Students at underperforming schools**
- 3 **English Language Learners**
- 4 **Tier 2 and Tier 3 Students**
- 5 **Students receiving special education services**

Soaring Graduation Rates

“We've implemented a number of online programs over the last 20 years, and we have found the Fast ForWord program to be the most successful program for our [6-10th grade] students.”

Ken Haggart
Superintendent of schools
