Concord, CA 94518  
Attn: Joseph Alvarico / [alvaricoj@mdusd.org](mailto:alvaricoj@mdusd.org) / 925-685-8414

Dear Joseph:

Stratasys is the owner of, and holds, more than 550 granted and pending patents globally, and our additive manufacturing systems utilize our patented FDM® and inkjet-based PolyJet™ technologies to enable the production of prototypes, tools used for production and manufactured goods directly from 3D CAD files or other 3D content.

Our FDM® technology uses production grade thermoplastic building materials that feature surface resolution, chemical and heat resistance, color, and mechanical properties necessary for production of functional prototypes and parts. Our 3D inkjet-based printing technology is differentiated from other technologies in its ability to scale and deliver high-resolution and multi-material printing, in color.

We believe that our 3D printing systems are unique in the combination of superior printing qualities, accuracy, print speed, the ability to print a range of materials with varying levels of strength, chemical and heat resistance, color and mechanical properties, the ability to print multiple materials simultaneously and suitability for office environments.

Stratasys is the sole manufacturer and/or proprietor of the design and technology of equipment sold under the FDM® and PolyJet™ trademarks and the specific trademarked Fortus, Dimension, UPrint, Connex, Eden and Objet brands.

All Stratasys equipment and materials are designed and/or manufactured at the Stratasys corporate facilities in Eden Prairie, Minnesota and Rehovot, Israel. These products and materials are sold and serviced only by Authorized Resellers.

Paton Group is the only Stratasys Reseller authorized to sell the Stratasys F123 Series system and materials to Ygnacio Valley High School in California and certified to service this equipment.

Please contact Ryan Szalankiewicz, at 916-502-1063 to obtain pricing and system information. Purchase orders should be made out directly to:

Paton Group  
787 W Woodbury Rd., #10  
Altadena, CA 91001

This letter has been issued in accordance with Stratasys's Reseller Opportunity Assignment / Conflict Management Policy, which encourages resellers to devote efforts to marketing and selling Stratasys products and services and ensures that Stratasys customers receive the highest quality and reliable service from its resellers.

Thank you very much for your interest in the Stratasys Product Line. If you have any questions please contact Ryan Szalankiewicz at Paton Group directly or contact me at 503-597-9769.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bruce A. Barton", with a long horizontal flourish extending to the right.
