RE: Bel Air Elementary School Sink Hole Repair

Dear Brad,

Per our discussion regarding the sink hole underneath the asphalt at Bel Air Elementary School, work will be performed "Time and Materials" as addition to bid 1863 in order to minimize the cost to the district. Should the work extend beyond the asphalt area, we will inform the district and only perform repairs to the surface boundary at the field. Work supervisor will be Javier Cruz.

Feel free to contact me with any questions.

Thank you,  
DRT Grading & Paving, Inc.
