

Oakland Unified and all of East County schools have elected to start via Distance Learning. For the safety of our students and our employees, I strongly urge the board to do the same thing for MDUSD.

Jane Kwiatkowski
CST 1st VP, CHS Registrar

This is Annie with CSEA we have some concerns as we had during school with this distance learning if the teachers are not contacting us and we don't have their phone numbers how are we supposed supposed to help the students some of it went okay because they were contacted so there has to be another system we don't have teachers phone numbers just like they probably don't have our phone numbers my members wanted to help I had phone calls before during the school year I'm sure we can find something for all of my members to do
