This proposal-contract is for the testing of the Fire Protection system ONLY. Certification of the system is based upon the system meeting all current Title 19 and NFPA standards and is paid in full. Any additional parts necessary to make fire system functional not listed shall be subject to additional charges. All materials to be UL and/or FM approved and meet minimum requirements of NFPA 13 2013 Edition. Manufacturer to be at Fire Protection Specialists discretion. If repair is necessary to certify the fire system, a separate quote shall be provided by Fire Protection Specialists or Sub-Contractor depending on the deficiency. Any work performed by another contractor other than Fire Protection Specialists will be reinspected again before we certify the system. If a reinspection is necessary you will be quoted in advance of any reinspection charges.

Limited liability and warranty: All service and maintenance of fire system shall be completed in a professional manner according to standard practices. Customer shall assume all risk for loss or damage to their premises or its contents due to failure of fire system or part to existing system. Fire Protection Specialists makes no expressed or implied liability or warranties as to any matter whatsoever, including without limitation, the condition of the equipment, its merchant ability or its fitness for any particular use. The customer acknowledges that there are no representations or warranties, expressed or implied, which extend beyond those on this agreement hereof.

Work to be performed during normal working hours (7:30am - 4:00pm Monday thru Friday)

Above prices are for labor only. Additional charges will occur for Material.

Receipt of copy: Customer acknowledges receipt of copy and they understand all of this agreement.
