The entry-level systems in the Zing Series produce anything but entry-level engraving and cutting results. These low-cost, desktop units are the perfect choice for someone starting a business or looking to add on a second laser.

The newest addition to the Epilog Laser family is the Fusion laser series. Engrave, cut and mark all types of materials with this new system that features the highest quality cutting available.

Epilog Fiber Laser Product Line

Engrave barcodes, serial numbers & logos on bare metal and mark plastic parts and tools. The flying-optic driven system is the perfect solution for engraving on bare metal parts at a low cost.

Epilog Legend Product Line

Featuring up to 1200 dpi engraving and servo motors for 30% more speed, the Legend Laser series includes the popular Epilog Mini 18, Mini 24 and Helix Laser.
